proCam XS

A miniature size camera with giant 4K features for loupe or light mounting. The proCam XS is half the size of the previous generation and boasts a Sony IMX 415 sensor for pristine video and still images, weighs only 14 grams, with manual focus to ensure 100% clarity when working loupe mounted.

- > Medical 4K miniature loupe camera
- > Only 14 grams!
- > Mounts to most loupes and lights (optional attachments)
- > Optional customized light adapter
- > USB connection
- > 4K / 1080p / 720p / @ 30fps; 8.3 MP photos

Benefits

- > Easy mounting on loupes or lights
- > Instant hands-free operation by foot pedal → no treatment interruptions
- > Quick documentation and sharing
- > Simple USB installation and integration
- > Modern case visualization and patient treatment plans
- > Certified and secured products, EU MDR 2017/745 Class I
- > Fast ROI by improvements in treatment acceptance rates
- > Powerful tool for safe and repeatable education
- > Replaces your current interruptive intra-oral and digital cameras
